Medical Director and prosthodontist 2014- Jun.2017

The Saudi Modern Dental Complex is a multidisciplinary Dental care center that was established more than 15 years ago and it has been providing the state of the arts in dental care for patients. As a medical director, I used to manage and plan all aspects of the dental center as well as supervising all daily activities including medical, financial, and administrative issues, in addition to ensuring that all dental treatment plans are evidence-based and in compliance with all applicable regulations. Also, I was responsible of providing continuous education to other dentists and staff in the center by means of attendance of dental and medical meetings and courses. In addition, I was meticulously implementing the policy of Infection Control that was compatible with the rules and regulation of the Ministry Of Health in KSA.
